

No. 3:16-CR-00060-M (John Paul Cooper)

Dear Honorable Chief Judge Lynn,

I am writing you on the matter of newly discovered evidence that was not available at the time of Trial in your court room (Oct 15-Dec 19, 2019) for myself and Dr. Simmon, Dr. Elder.

Currently I have no representation to preserve this new evidence (which would be in the form of 3 depositions). I am on appeal and Pro Se as it relates to what I understand would be a Rule 15(a) preservation depositions. As of today I do have full contact information on these 3.

I feel this evidence is compelling and would not ask for its preservation if it were not. I do not have access to a law library, law degree, and asking for this evidence be preserved now. I am not asking for a new trial simple representation (attorney) to handle the matter of these depositions. As I can be moved at any point in the jail I still sit in for last 3 months please use the following address of my

attorney for my appeal to respond to my request.

Mr. Robert Clary, PhD
Attorney at Law
405 Winward Dr.
Murphy, Tx 75094

I am sure the marshals have my current location. As of today November 5th 2020 I am housed at:

Johnson County Correctional Center
Attn: John Paul Cooper (202000536)
1800 Ridge Man Dr.
Cleburne, Tx 76031

I would also request a copy of the courts reply sent to my current housing on the day it is sent out from court. This is a preservation request, nothing to do with appeal. Thank You for your timely response on this matter.

Sincerely, John Paul Cooper
